

At CME Boilermaking we pride ourselves on our versatility and diversity to service any clients requirements.

CME Boilermaking is a privately owned WA company. Our scope of works ranges from completing work for machine dealership, mining contactors, shires/government and the public either in the workshop or onsite. Our workshop is located in Midvale not far from both the Great Eastern and Northern hwy. We are not limited in the work we complete from small repairs to new designs and fabrications.
